YORK® residential air conditioners

YC6 Split System Air Conditioner

Up to 17 SEER2 | 13.5 EER2
1.5–5 tons

Next-level efficiency for now and the future

Up to 17 SEER2
1.5 to 5 tons

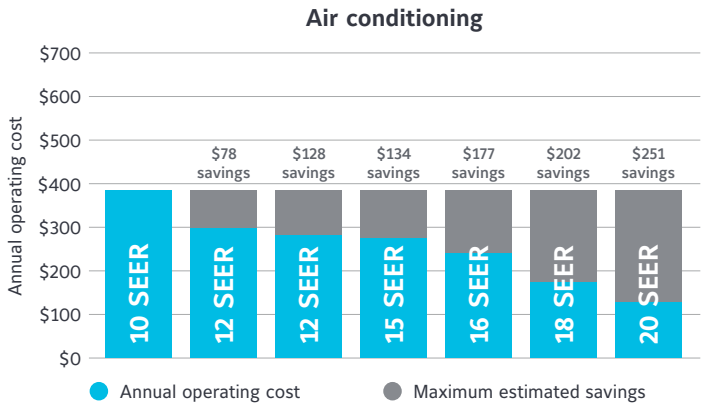

The YORK® YC6 air conditioner offers ENERGY STAR®-rated performance with up to 17 SEER2 cooling efficiency and 13.5 EER2 performance, making this unit eligible for rebates.* Expertly designed, engineered and rigorously tested, these YC6 air conditioners offer the latest in energy savings and lasting performance for years to come.

*Rebates will vary depending on location - check with your installer for details.

Designed and constructed for optimal installation, performance and serviceability

- Designed with matches to meet CEE Tier 1 and ENERGY STAR® efficiency requirements with select indoor units
- Two-stage operation (2-ton+ models)
- Micro-channel coils
- Optimized with environmentally friendlier R-454B refrigerant
- Low-sound fan design
- Durable powder-coat paint

Higher efficiency can save 50% or more on energy bills**

**These figures represent the expected overall performance and operating costs of a 3-ton HVAC unit at $0.11 per kilowatt hour, based on average weather and location for one year. Operating costs vary depending on climate conditions, home characteristics, energy rates and usage patterns. Savings not guaranteed.

YORK®

Quality design and construction

1. Eligible matches for 25C federal tax credits, rebates and other incentives available. Check with your local installer for details.
2. Aluminum alloy micro-channel coils for maximum efficiency and durability
3. Two-stage operation on 2-ton+ units for extra performance and comfort
4. Extruded louver for extra strength
5. Automotive-grade, powder-coating painted finish with industry-leading 1,000-hour salt-spray rating
6. Unique low-sound fan design
7. Designed with environmentally friendlier R-454B refrigerant

Industry's most serviceable unit

8. Streamlined footprint for easier transportation and installation
9. Removable fan guard
10. Swing-out control box
11. Full access from the top and side

*Adapter fitting must be field-installed for the required 1 1/8in. line set

Lower cost of ownership
Up to 17 SEER2 efficiency and two-stage performance (on 2-ton+ models) can save on energy costs and increase comfort.

Quiet operation
Direct-drive fan design minimizes vibration and sound.

Confidence guaranteed
Industry-leading warranties ensure years of dependability.

Trusted quality
Manufacturer-backed warranty: our industry-best warranty protection provides peace of mind.

10 YEAR COMPRESSOR LIMITED WARRANTY
10 YEAR PARTS LIMITED WARRANTY

To receive the extended 10-year parts warranty or premium system warranty for qualifying units, you must register online at www.upgproductregistration.com. Registration must be completed within 90 days of installation or 90 days of the closing date for new home construction. Failure to register online within 90 days results in a standard 5-year parts warranty. Failure to return the registration card does not affect rights under the standard warranty.

Replacing a full system? Pair with our YORK gas furnaces or air handlers for optimal efficiency and performance.
